Your health and well-being are important to AECOM

We're committed to providing benefits that support you and your family, wherever in the world you may be at any time.

This guide provides an overview of the benefits available to Canada employees on international assignments, including your options for coverage and what you need to do.

For additional information about all your benefits, visit benefitsatAECOM.com — your first stop for all things benefits. There you can find benefits information and resources, links and contact information for all our benefits partners, and resources to help you and your family be well in all aspects of your life.

If you need personalized assistance with your AECOM benefits, call the **AECOM Benefits Service Centre** at **833.411.5520**. If you have specific questions about the international health plan, call Cigna Global directly (contact information is provided on the following page).

The information contained in this guide applies to Canada-based employees working on an expatriate assignment anywhere in the world, except the U.S. Coverage in the U.S. is limited to emergency services only.

No physical ID card needed

You don't need a physical ID card to access your Cigna Global Health Plan benefits, so you won't receive an ID card in the mail. Instead, you can access a digital ID card, file claims and speak with a customer service representative with the Cigna Envoy app. Some **countries** issue additional country-specific cards. Those cards will be sent to you at your home address of record.

Benefits and eligibility may differ for employees covered under a union plan or other contract. AECOM's benefits are governed under the rules provided in the applicable plan documents and benefits summary, which will be provided upon request.
